

GoPiGo Tutorials & Documentation

 dexterindustries.com/gopigo-tutorials-documentation/

Congratulations on getting a GoPiGo Raspberry Pi Robot Kit! THESE ARE OLD INSTRUCTIONS — please go [here](#) for the new one!

These instructions are for GoPiGo1. If you have the GoPiGo2, please go [here](#).

This page and the sub-pages will help walk you through getting it setup and started. We recommend you go through each page, in the following order:

1. [Assemble the GoPiGo](#) Raspberry Pi Robot Kit. (for accessories see below)
2. [Setting up the SD Card](#).
3. [Powering Up the GoPiGo](#).
4. [Connect to the GoPiGo](#).
5. [Booting the GoPiGo for the first time](#).

After you have completed all the steps above, you can check out the [Example Projects](#) that we have made and try them out yourself or make something cool and share it with the community.

Assembly Instructions for GoPiGo Accessories

Please find the assembly instructions for each accessory in the links below:

[GoPiGo Servo Kit](#)

[Raspberry Pi Camera & Ultrasonic Sensor](#)
